

BRIAN TALUGENDE

Technical Support | IT Support Engineer

+1 514-707-7863 | brian.talugende@outlook.com | [linkedin.com/in/brian-talugende-bt/](https://www.linkedin.com/in/brian-talugende-bt/) | Montreal, QC

PROFESSIONAL SUMMARY

Customer-Focused Technical Support Specialist with **5+ years of experience** delivering **Level 2/3** enterprise IT support, endpoint hardware deployment, system administration, and end-user troubleshooting. Proven track record of resolving complex Windows OS, hardware, printer, and networking issues while maintaining a **95% SLA resolution rate**. Skilled in managing IT lifecycle operations, including device imaging, configuration, asset updates, and deployment across high-demand environments. Adept at partnering with cross-functional teams and external vendors to maintain secure, reliable infrastructure and top-tier user satisfaction.

PROFESSIONAL EXPERIENCE

Technician, Technical Services

Oct 2020 – Jul 2025

Shopify | Montreal, QC

- **SLA & Incident Management:** Maintained a **95% SLA resolution rate** while managing Tier 2-3 support requests via Zendesk and Freshservice, reducing average ticket turnaround time by **20%** across remote internal teams.
- **Identity & Access Management (IAM):** Streamlined Joiner/Leaver SOPs using **Okta RBAC workflows** and Google Workspace, provisioning/deprovisioning user accounts with **100% security compliance** and zero delay on day-one access.
- **Incident Response & Outage Mitigation:** Spearheaded incident communication as primary point-of-contact in high-priority Slack channels, deploying fast workarounds that cut business downtime by **30%** during system disruptions.
- **Engineering & Tier III Escalation:** Analyzed system logs using Chrome DevTools and Splunk to isolate root causes, reducing engineering escalations by **25%** through high-quality Tier 1-2 troubleshooting.
- **Platform Administration & SME:** Managed Twilio call centre operations as SME for **20+ high-impact projects**, improving advisor workflows by **25%** and directly supporting platforms generating over **\$100M+ GMV**.
- **Documentation & Self-Service:** Authored and updated **50+ KB articles and standard operating procedures (SOPs)** in Guru, decreasing recurring user support inquiries by **15%**.
- Diagnosed application and connectivity issues for Support teams on MacOS and ChromeOS devices, collaborating with engineering and third-party vendor teams to ensure system availability and secure end-user operations

Business & Integration Architecture Analyst

May 2018 – Sep 2019

Accenture | Toronto, ON

- **Remote Endpoint Deployment:** Provisioned, configured, and deployed **200+ Android transit devices** using remote MDM systems, achieving a **99% successful patch/firmware deployment rate** with zero disruption to active field operations.
- **Hardware & Network Diagnostic Reliability:** Troubleshot network connectivity, software, and hardware issues for live transit endpoints, maintaining **99.5% operational uptime** for critical client hardware.
- **Process Documentation & Cutover Execution:** Built cutover tracking models in Excel and authored end-user SOP job aids, reducing deployment downtime by **15%** across **20+ server instances** during large-scale Microsoft technology deployments within Staging to Production environments.
- **Platform Support & Engineer Escalation:** Drove Microsoft SharePoint and Sitecore CMS deployments, conducting integration testing and troubleshooting to eliminate bottlenecks and reducing deployment risks pre and post technology deployments.
- Defined requirements and user stories for a Salesforce-based internal support and case management portal used by over 10,000 professionals globally, building foundational experience supporting enterprise-scale SaaS platforms.
- Prepared, cleaned, and validated user data for bulk migration into Salesforce, ensuring data integrity through accurate field mappings and thorough quality review.

Tyco Security Products | Toronto, ON

- **Hardware Assembly & Imaging:** Assembled, cabled, imaged, and verified specifications for Windows and Linux PC/server towers, achieving **100% accuracy** against enterprise client hardware build sheets.
- **System Testing & System Uptime:** Executed root-cause failure analysis and validated OS patch deployments across CCTV server platforms to maintain **24/7 system availability**.

TECHNICAL SKILLS

- **ITSM & Support Operations:** Tier 2/3 Technical Support, Desktop Support, Ticket Management (Freshworks, Zendesk, Jira), SLA Compliance, ITIL Best Practices, Knowledge Base Creation (SOPs)
- **Operating Systems & Endpoint Management:** Windows 10/11, Windows Server, MacOS, Linux, Android devices, Endpoint Configuration, Device Imaging & Deployment, Asset Tracking
- **Enterprise Software & Security:** Microsoft 365, Active Directory / Azure AD (Entra ID), Okta, Salesforce, Patch Management, Antivirus & Compliance Tools, Databases (MySQL, MS SQL Server)
- **Networking & Infrastructure:** TCP/IP, Wi-Fi, VPN Configuration, DNS, Hardware Diagnostics (Laptops, Desktops, Printers, Peripherals)
- **Tools & Scripting:** PowerShell, Bash, SQL, Git/GitHub, GCP, Chrome DevTools, Splunk, Grafana

EDUCATION & TRAINING

IT Service Analyst Certification | 2018

NPower Canada, Mississauga, ON

Diploma in Computer Engineering | 2013

Centennial College, Toronto, ON

Bachelor of Science in Internet Computing | 2010

The University of Liverpool, Liverpool, UK
